

# Efficient Storage Solutions to Save Your Healthcare Facility Time and Money

SOUTHWESTSOLUTIONSGROUP  
*business organization systems*

## Pharmacy & Lab Solutions

Improve the workflow of your staff with FrameWRX. This flexible storage system enables you to easily adapt and update your storage area as your needs change.

## Wire Shelving & Carts

Our wire shelving & carts provide a clean working environment for your medical facility. We have a wide variety to meet your application.

## Health Information Systems

In most cases, high-density mobile filing systems can increase your filing capacity by 100% in the same area or cut your space required for filing in half.

## Emergency Department

Increase the operational efficiency of the emergency department by creating efficient storage areas for critical supplies close to the point-of-need.

## Sterile Storage

Quickly access sterile storage with high visibility storage solutions made to fit into critical spaces where storage is needed.

## Storage Solutions

Make the most of your limited space with this space efficient storage system. Ideal for organizing large and small items in the same system

### Catheter Storage

Manage various sized, hard to store catheters easily and quickly in a space efficient storage system. Let us put a line on your catheter storage areas.

### Literature & Form Management Systems

Sorting equipment is critical to process business information properly and efficiently. Whether your need is for a copy center, literature, forms or a mailroom, we can help.

### Clinical Lab Storage

Make your laboratory more efficient with the right storage equipment to store Paraffin blocks, Tissue blocks, Microscope slides, devices, specimens, reference materials and supplies.

### Surgery Suites Storage

Eliminate wasted time spent walking to retrieve critical supplies with our "point of use" storage systems for those critical care areas like Surgical Suites.

### Sterile Medical Casework

We can provide all types of modular casework for your healthcare facility, including special clean area casework where the control of germs, bacteria and viruses is of paramount importance.
