

Taking Space Efficiency and Productivity to new Heights

Vertical Lift Modules (VLM)

Vertical Lifts make use of valuable overhead space while optimizing productivity & inventory control. Reduces lost parts, stock outs & surplus inventory.

High-Density Mobile Pallet Racks

Stationary aisles take up as much as 60% of warehouse floor space. Convert that wasted space into more pallet positions without sacrificing access.

High-Density Mobile Shelving

Reduce floor space by eliminating wasted unused aisle space. Free up floor space for more important operations, or double your storage capacity in the same footprint.

Vertical Carousels

Vertical carousels excellent for small part picking operations. In most applications productivity can be increased by 50% to 60%.

Horizontal Carousels

This automated storage system will make your facility more productive and space efficient. Shelves rotate horizontally, to bring parts to the operator.

Mezzanines

Add valuable space to your facility with a mezzanine system. Strong enough to hold the heaviest loads and flexible to relocate when needed.

Products

- High-Density Mobile Storage
- High-Density Mobile Pallet Racks
- Vertical Lift Modules
- Horizontal Carousels
- Vertical Carousels
- In-Plant Office Buildings
- Modular Drawers
- Wire Partitions
- Mezzanines
- Workstations
- Evidence Lockers & Shelving
- Property Storage Shelving

Applications

- Warehouse
- Tool Rooms
- Maintenance
- Parts Departments
- Production Support Areas
- Assembly Areas
- Climate Controlled Areas
- Evidence Rooms
- Clean Rooms

Service

- New Installations
- Preventative Maintenance
- Space Efficiency Audits
- Installations & Relocations

Service Locations

- Austin, Dallas, Ft. Worth, Houston,
- San Antonio, Rio Grande Valley,
- Little Rock, Memphis, Oklahoma City,
- & Wichita

Wire Partitions

Protect your materials with heavy-duty wire partition security enclosures. Easy to install and relocate when needed. Simple heavy-duty modular design that requires less parts to assemble.

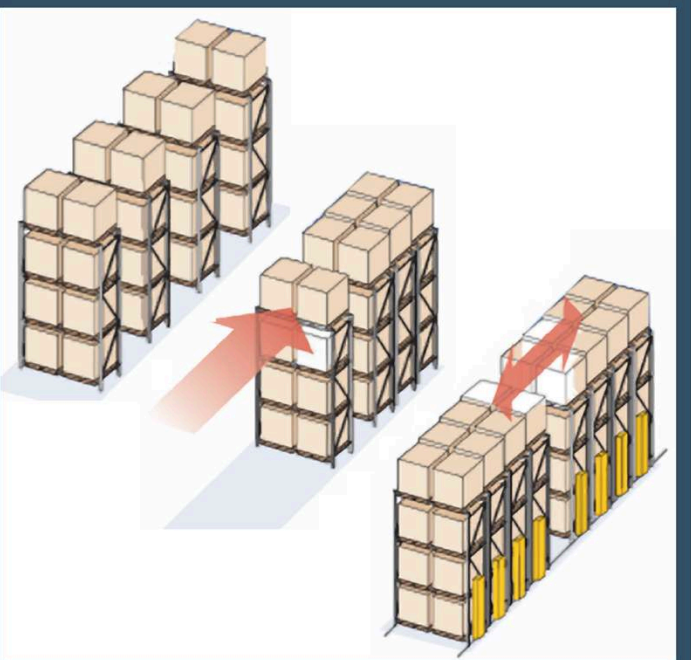

In-Plant Office Building

Create office space without expanding the walls of your facility. Save costs by only heating & air conditioning the office portion of your warehouse with an In-Plant office building.

Heavy-duty Mobile Bulk Racks

Bulk supplies taking up too much space in your facility? Heavy-duty mobile bulk rack systems can either free up floor space or double your current storage capacity.

High-Density Mobile Rack Concept

Typically 60% of the floor space is wasted in non-productive access aisles. Only 40% is actually used. Mobile shelving eliminates all but one "moveable" access aisle to compact stored materials & save space.

Modular Drawers

Modular drawers allow you to save space and organize small parts for quick and easy retrieval and restocking.
