

**SAVE VALUABLE TIME AND MONEY.**

Because DecoWall can be reused again and again, the cost over time amounts to much less than conventional construction.

DecoWall is even 2-5 times less expensive than other, less attractive modular wall systems. Plus, fewer trades are needed than with conventional construction and DecoWall also installs up to 75% faster than conventional construction, saving valuable time. Your money is spent wisely on the materials, which you own, versus the labor, which can never be recouped.

If your business is like most, you could reap a healthy return on your investment in as little as three years. All without ripping out walls, creating dusty construction rubble, or having to pay for the disposal of building materials.

DecoWall also provides an attractive, private professional setting that's conducive to business.

As an added bonus, DecoWall is considered tangible property, so the walls can be depreciated over seven years versus 39 years like conventionally constructed walls.

WITH DECOWALL,  
 YOU WILL NEVER LOOK  
 AT OFFICE SPACE  
 THE SAME WAY AGAIN.

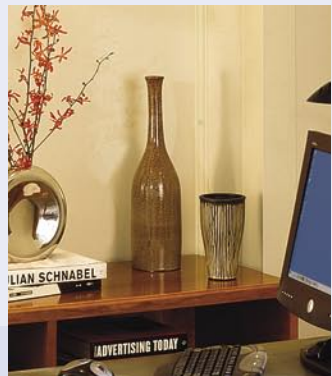

Office space. Redefined.™

OFFICE SPACE BUILT OUT WITH DECOWALL COSTS LESS, TAKES LESS TIME AND IS MORE FLEXIBLE.

#### DECOWALL™ CHANGES ALL THE RULES.

DecoWall is an attractive prefabricated, floor-to-ceiling, modular wall system that quickly and easily installs to your exact specifications. Unlike conventional construction, it offers the ultimate in flexibility because when your business needs change, DecoWall can be reconfigured in no time

to meet those new changes. It comes in six standard colors and 60 customized designer colors to fit any design aesthetic. DecoWall

provides the desirable, floor-to-ceiling, look of conventional construction, but without the mess or high cost and in a fraction of the time.

#### QUALITY, INSIDE AND OUT.

DecoWall is tailor-made to your exact specifications. Show us your floor plan, explain your needs and we will build a reusable, moveable wall system that perfectly meets your requirements. Everything is included, from the insulated floor-to-ceiling wall panels and doors, right down to the electrical wires and molding. The steel components and trim are expertly finished with durable vinyl through an exclusive, technologically advanced process called TrueMatch™. The result is an attractive wall system that is stronger and much more versatile than traditional construction.

National Partitions® has been manufacturing modular building systems like DecoWall for more than 35 years, so you can be certain that we know how to get the job done. By prefabricating the wall system in our manufacturing facility, we maintain the highest quality control, every step of the way. A DecoWall moveable wall system is the best move your business can make. See how in even more detail by calling **877-999-DECO (3326)** or visiting **[www.decowall.com](http://www.decowall.com)**.
