

### TRAYSHelf OR SLIPSHelf SHELving

The TrayShelves and SlipShelves use the same Shelf Front and FastFit® Dividers as the PullOut Shelves, however, the shelves remain static on fixtures or multi-angle cantilever brackets.

	Wall Unit				Double Sided			
	Post Height	Depth(inch)			Post Height	Depth(inch)		
		12	16	20		12	16	20
	89	15 1/4	19 1/4	23	89	27 3/4	35 5/8	43 1/2
	Width

<b>System 24</b>	25	48 5/8	72 1/2	96	25	48 5/8	72 1/2	96
<b>Medications *</b>	80	160	240	320	160	320	480	640
<b>System 36</b>	37 3/8	73 1/2	109 5/8	145 5/8	37 3/8	73 1/2	109 5/8	145 5/8
<b>Medications **</b>	115	230	340	460	230	460	680	920

\*Standard eight Cantilever TrayShelf or SlipShelves.

\*\*Standard sixteen Cantilever TrayShelf or SlipShelves.

### DISPENSA REAR LOAD CABINET

A melamine cabinet of TrayShelves, fixed by Support Pins to the side of the cabinet. Shelves slope forward so that clinical staff can dispense from the front as non-clinical staff stock the system from the rear.

**Key Benefits:**

- Lower cost
- Superior rotation
- Excellent workflow
- Refit or retrofit

Cabinet Height (inch)	Depth of cabinet(inch)			
	16	20		
90 1/2	20 1/2	22 5/6		
Width(inch)				
1 Bay	2 Bay	3 Bay	4 Bay	
<b>System 24</b>	28 3/4	55	81	109 5/6
<b>Medications *</b>	90	180	270	360
<b>System 36</b>	41 1/6	79 3/4	118 1/4	159 1/2
<b>Medications *</b>	130	260	380	515

\*Standard nine Support TrayShelves
