

Promedia Shelving

CASE FEATURES:

- *1/2" vertical shelf adjustment - with no tools
- *3 Case heights - 60", 81" & 90"
- *One Case width - 35"
- *2 Case depths - 5.5" & 7"

- *Powder coat finish - Durability with no off gassing
- *Leveling guides standard
- *Optional locking doors for security & protection
- *Optional Stabilizing feet - increases effective footprint
- *Ships "Set-up" ready to use & easy to relocate

SHELF FEATURES:

- *3 Styles to choose from - standard, recessed & flat
- *Built in tracks - accommodate accessories & beam strength
- *Built in "finger room" - allows more shelves per case
- *Adjustable backstop - position media to the front of the shelf
- *Optional Media Racks - Snap on shelf for discrete slot filing

NOTE - Proper anchoring is required to prevent tipping, case will not freestand without stabilizing feet, additional anchoring still may be required

Which shelf should you use?

- 1)Standard Shelf - can be used for any media. It is the best choice for media that is taller than it is deep
- 2)Recessed Shelf - designed primarily for data media applications where a front label area is required on shelf best for media that is square or shorter then it is deep
- 3)Flat Shelf - is a BUDGET version of the recessed shelf. It has no tracks and will not accommodate a backstop
Flat shelf is only available in a 5-1/2" size and does not work for all media. Suitable for 3480,DLT,LTO and CD's

Which shelf accessories should you use?

- 1)Slide-N-Lock Bookend - an inexpensive & effective way to keep your media from falling over - held in place with spring pressure
- 2)Adjustable Backstop - keep your media lined up neat and tidy but you can also adjust the depth of the shelf when your media size changes
- 3)DSMR Media Racks - provides a quick and easy way to provide individual slots for your media and can be switched if your media changed. Available for most popular data media
