

Wire Storage Solutions

What a "Wire Storage Carousel" will do for you ...

The motorized wire storage machine is the most space efficient method to store and merchandise reels of wire. The machine is operated by one person, allowing to quickly locate the desired reel of wire, stop at the proper position and remove the product safely and efficiently.

Merchandising Flexibility:

The Wire Storage System comes equipped with a wire mesh front guard. The guard provides an area for signage and point of purchase information. Steel carrier frames are an ideal place for price tags, sku's or detailed product information

Simple and Safe Operation:

The simple to operate, push button controls are positioned within easy reach of the operator. The digital security keypad will prevent unauthorized personnel from operating the machine.

Multiple Configurations:

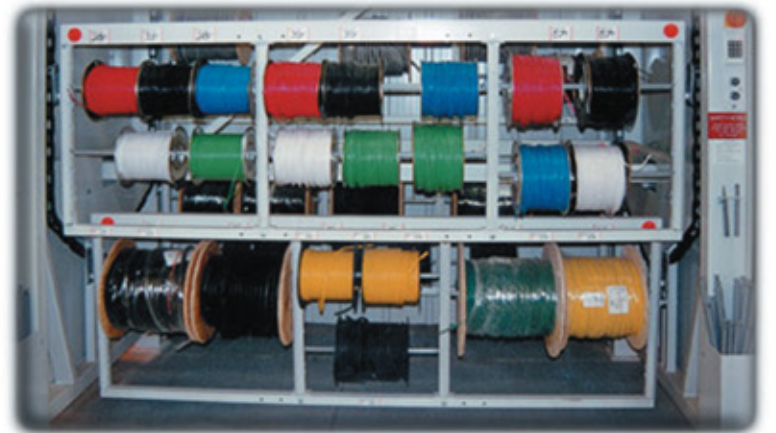

Carrier frames accommodate multiple reel diameters and widths.

The self-leveling carrier frames provide a balanced load, ensuring smooth operation.
