

# TEXTILE CAROUSEL

Designed so that rolled fabrics and textiles can both be stored and retrieved from one central location, the Textile Carousel increases efficiencies by reducing search and retrieval times as well as increasing storage capacity. The textile carousel not only reduces injuries but has the capability to effectively integrate into production environments where dispensing rolled goods is integral to the final product.

**SINGLE  
PERSON  
OPERATION**

**INCREASES CAPACITY**

**REDUCE INJURIES**

**FAST RETRIEVAL**

**SMALL FOOTPRINT**

**SIMPLE LOADING**

**PRODUCTION LINE  
INTEGRATION**

- Centralizes inventory for quick and easy retrieval
- Utilizes wasted overhead space and increases storage capacity
- Reduces lifting and work related injuries
- Effectively manages your inventory
- Accommodates a wide variety of widths and diameters. We can customize any textile carousel to fit your volume requirements and size needs.
