# SNAP&GO work station

**Part Number – 20070000 - Datasheet**

SNAP & GO by IDENTI maximizes the business potential of the OR & procedural rooms while increasing patient safety. By providing 100% data capture of available stock and usage at point of use, the patented technology allows for accurate financial & operational management – no revenue leakage, stock-outs, or expired items. Thus, it releases the burden on staff, eliminates dependence on barcodes, and promotes a stress-free work environment. Powered by AI&ML, this easy-to-use computer vision platform identifies medical implants and consumables, documents their use and cost, tracks product integrity (recall and expiration dates), and synchronizes information in ERP & EHR systems.

| Host Computer Interface | | Environmental | |
|---|---|---|---|
| **Communication** | LAN: 100/1000 Mbit/s | Temp Range | **Operating Temp**: -5°C/ 23°F to +35°C/ 95°F. |
| | Wi-Fi: 2.4 GHz, 5 GHz | | **Storage Temp:** -20°C/ -4°F to +85°C/ 185°F |
| | Cellular (optional): 4G (LTE) /3G/2G | Physical Dimensions | |
| Power Setting | | **Dimensions:** | **Depth: 50** cm / 20 Inches **Width:** 58 cm / 23 Inches **Height:** 37.5 cm/ 14.8 Inches |
| **Supply Voltage:** | 100-240V, 50/60Hz | **Weight** | 7 KG |
| Main Components | | Regulatory Certifications | |
| **Computer** | Core i5 CPU, 16 GB RAM, 500 GB SSD | EN 301 489-1 V2.2.3; EN 301 489-17 V3.2.2; IEC/EN 60601-1-2 4th Ed EN 60601-1 3.1 Ed.; IEC/EN 60601-1-6:10+A1:13 ANSI/AAMI/IEC 60601-1-2:2014; CAN/CSA-C22.2 NO. 60601-1-2:16 | |
| **Camera** | 13 MP autofocus USB 3.0 | | |
| **Barcode Reader** | Zebra DS-457 | | |
| **RFID Reader** | LT_Desktop_Reader | | |
| **Controller** | LOGI50ARM | | |

**IMAGE RECOGNITION SENSOR**
Patent-protected technology for real-time data collection and billing of medical implants and consumables used in surgery.

**HUMAN BACK-OFFICE SERVICES**
Unrecognized items are identified by IDENTI's support team, who update the global database.

**GLOBAL DATABASE & MACHINE LEARNING**
Combines thousands of raw information details of medical and drug implants in one database. Updated daily.

**AI-DRIVEN CLOUD PLATFORM**
Novel software powered by AI & ML identifies patterns and generates highly intelligent insights.
